about me

Here's an overview of you, based on the info I have:

Nahanfunda is a highly skilled and motivated individual with a background in Computer Science, having completed a BCA and worked as a lab instructor at MEA Engineering College, Perinthalmanna, for over 1.5 years. You also have hands-on experience from a 6-month DevOps internship at TechMinds in Kochi. You're passionate about DevOps and have a strong understanding of technologies such as shell scripting, Python, C, Java, Ansible, Docker, Terraform, AWS, Jenkins, GitLab, Maven, Kubernetes, and more. You're currently preparing for the GATE CS exam and exploring new opportunities, such as applying for DevOps engineer positions.

Apart from your technical expertise, you're an active leader as the president of the LGBTQ+ team at MEA Engineering College, advocating for inclusivity and equality.

You have a natural inclination for continuous learning, as seen in your ongoing projects involving DevOps practices, CI/CD pipelines, and cloud infrastructure automation. You're also venturing into web development with projects like creating personalized email systems using Python.

Is there anything else you'd like me to include or update?
